

# Fitting Instructions

SKU

**T4X998**

PRODUCT

**TAG Heavy Duty Towbar  
for Universal Multi-Fit Truck**

SPECIFICATIONS

- Towbar Class: CL 4 Heavy Duty
- Towing Capacity: 4500kg
- Tow ball Weight: 450kg
- D-Value: 22.9
- Approx. Fitment Time: 30 Minutes

# Towbar Assembly

ITEM NO.	DESCRIPTION	QTY.	ITEM NO.	DESCRIPTION	QTY.
1	Towbar Assembly	1	12	Gusset Triangle -(82x82x8mm)	2
2	TAG Hitch Cover	1	13	Auxiliary Side Mounting Plate	2
3	D-Shackle - 10mm. 1000kg	2	14	50x50x8 Single Hole Top Plate	6
4	Class 4 Pin & Clip	1	15	50x50x6 Single Hole Top Plate	6
5	TAG HD Sticker 150 x 33mm	1	16	M12 x 1.25 x 50 Hex Bolt	8
6	Compliance Label	3	17	M12 Shakeproof Washer	10
7	Fitting Instruction	1	18	1/2" Flat Washer	10
8	L4045 POWDER COATED TBM	1	19	M12x1.25 Nut	10
9	50mm TAG Tow Ball - Chrome	1	20	M12 x 1.25 x 40 Hex Bolt	2
10	End Plate Assembly	1	21	Fitting Instruction	1
11	End Plate Assembly DS	1			

# Important Information

## Warning:

- This product is for towing purposes only and must only be loaded as shown in your vehicle Owner's Manual.
- This towbar is NOT to be drilled, cut, welded, or modified in any way.
- Check behind chassis rail and body panels before drilling to ensure no hazards are present.
- All load ratings shown are under the assumption your trailer has a functional braking system installed.
- When installed in positions other than the one depicted in these instructions the Tow Ball Mount may interfere or obstruct certain features of your vehicle (tailgate opening, Chassis clearance, etc.)

## General:

- Before fitting this towbar read fitting instructions and check installation hardware is correct.
- Check that the towbar is suitable for the vehicle and be wary of any changes to the vehicle design that may conflict with the fitting of this towbar. (Tray, Canopy, Suspension etc.)
- After drilling, blow any filings clear, remove any burrs and treat exposed metal with a rust inhibitor.
- The high tensile fasteners supplied with this product are an integral feature to achieving the specified rating, if replacement is required ensure that fasteners of the same grade (8.8) & quality are used. Contact an authorised TAG distributor or the TAG fitment center - (07) 3208 3022 - if further information is required.

## Towbar Maintenance and Care:

It is recommended, when not in use, that the Tow Ball Mount assembly and class 4 Pin and Clip is stored inside the car away from moisture to prevent standing water from forming rust. Inspect to ensure, on regular basis, fasteners are torqued to the specifications below and in good condition.

Ensure that the fitting instructions are read and understood prior to fitment, Following the fitment place these instructions in the vehicle's glovebox after installation is completed.

*Metric Bolt Torque Settings*

Diameter	Pitch	Grade	Torque	Unit		Diameter	Pitch	Grade	Torque	Unit
M8	1.25	8.8	29	Nm		M12	1.25	10.9	125	Nm

---

## Step 1: Prepare for Fitment

---

- a. Using Vise grips clamp the end plate assemblies to the underside of the chassis. If there are any protrusions preventing the end plate from sitting flush to the chassis use the spacer plates provided to avoid these features. These plates can be tacked welded to the end plates to aid in fitment, just be sure to line the holes on plate up to the holes in the end plate.
- b. Attach the auxiliary mounting plates to the outside of the end plate and line up to the closed side of the chassis rail and measure from the rear of the chassis to ensure both end plates are spaced from the rear of the vehicle equally.
- c. Insert the center section into the endplates and measure from each end plate to the hitch box to ensure hitch box is centralized between the endplates. Also check to ensure the center section is parallel to the rear of the vehicle.
- d. Make a mark on the center section indicating where the end plates are located. While here ensure that the gussets provided can be installed and do not interfere with any functions of the vehicle, Mark position (End plates may be shortened if necessary).
- e. Remove the center section from the end plates and remove the paint around the area the marks were made on both center section and end plates to accommodate welding.
- f. Re-centralize the center section in the end plates and tack weld in place
- g. Drill hole positions from end plates and auxiliary plates into the chassis to accommodate 4 bolt sets on each side.

---

## Step 2: Weld Towbar

---

- a. Remove towbar from the chassis
- b. Install a spreader bar between the end plates to reduce distortion
- c. Weld around the perimeter of the intersection between the end plates and center section on both sides of the end plate
- d. Locate and weld the gussets onto the towbar as well
- e. After cooling, remove the spreader bar

---

## Step 3: Instal Towbar

---

- a. Fit the towbar to the vehicle using the bolts and remaining plates provided from the inside of the chassis
- b. When all hardware has been placed torque them to their specified value on pg.3

# Installation Instructions

---

## Step 4: Complete Towbar & Apply Spare Compliance Label

---

- a. Attach TAG Hitch cover with rubber mallet carefully to prevent breaking.
- b. Attach Tow ball to Ball Mount and slide into receiver. Secure with Pull pin and Clip if you are going to tow straight away. Alternatively, secure the Ball Mount in a safe place inside your vehicle.
- c. Apply one of the compliance labels to the pillar of the driver's door. Leave the remaining label and the fitting instructions in the vehicle handbook.

# TAG Warranty Statement

SWD warrants your TAG Towbar for its full product life under the following conditions:

- You can show proof of purchase.
- The towbar has been correctly installed by a suitably qualified installer.
- The towbar has not been modified or abused in any way and has only been used for the purpose intended.
- The towbar was not fitted second hand to your vehicle.

The extent of this warranty includes materials and workmanship used in the manufacture of the towbar and is to the equivalent value of current, full replacement cost.

Nothing stated or implied in this warranty limits in any way, the statutory rights that you may have.

To make a claim visit the original installer in the first instance or, if you are unable to or are not satisfied with their help, then contact us direct by phone on 1300 669122 or visit [www.swd.com.au](http://www.swd.com.au).
